

GA Freefall Formation

5 Nov 2006

20 Way Thomaston, GA

POPS skydivers at the Skydive Atlanta Freeflight Festival in Thomaston, Georgia set a new Georgia State POPS record 20-way on November 5, 2006. Organized by Danny Page and launched from Skydive Deland's Twin Otter, the skydive was completed on the first 20-way attempt and it immediately followed a successful 14-way record-breaking jump. The formation flew nicely for 10 seconds.
